

This is not the VA you think it is (it's so much more)

WELCOME TO THE **NEW** VA PITTSBURGH HEALTHCARE SYSTEM

Introducing one of the largest, most progressive VA medical centers in the country where, every year, **65,000 veterans** from across the nation pass through our doors and put their care in our hands.

Our two main campuses and five community clinics are home to some of the **best medical machinery in the world**. From 3D X-ray machines to sophisticated surgical robots—our technical toolbox is second to none when it comes to healing our country's heroes.

Our compassionate care teams support more than 107 health programs—everything from caregiver aid to kidney transplants—dedicated to protecting and advancing the wellness and happiness of our nation's heroes.

In the last decade, we've invested more than **\$250 million** in building and enhancing state-of-the-art facilities that offer equal parts comprehensive, cutting-edge care and friendly, personalized service.

Some of the country's **brightest medical minds** have converged in our operating rooms, research labs and clinical care areas and every single employee in our 3,000-member family shares one extraordinary—and noble—mission: serve veterans.

What are you waiting for?

Come discover the next generation of VA care.
